The General Manager

Dear Sir,

Heritage Interpretive Sign - Beecroft Station

The Beecroft Cheltenham Civic Trust wish to bring to Council's attention the slight damage to the newly erected Heritage Interpretive Sign at Beecroft Station. A photograph showing the damage is attached. The History Group and ETTT, who were responsible for the designing and manufacturing of the sign, believe that the nature of the damage indicates it occurred during erection and not from vandalism. The Trust requests that Council and Sydney Trains, both being the current custodians of the sign, to arrange for the sign to be repaired. It would be a pity for the sign to remain damaged from the beginning.

Yours sincerely

Ross walker
Vice President
Beecroft Cheltenham Civic Trust
