

The General Manager
Hornsby Shire Council

Dear Sir,

Footpath maintenance in Hannah St shopping precinct Beecroft

The Beecroft Cheltenham Civic Trust wish to bring to your attention the general untidiness of the streetscape in the Hannah St shopping precinct at Beecroft.

- There has been a gradual increase in weed growth between the footpath pavers in some places. Refer to photo attached
- Often there are broken branches on the road side blister plantings
- Weeds are increasing in the road side blisters.

The Trust and local community take pride in managing the shopping precinct when we can but there are limits of course.

While we have volunteers regularly watering the camellias in the planter boxes along the footpath and at the same time pick up litter, the volunteers can't weed the blisters due to road safety reasons. Similarly it would not be appropriate for the volunteers to spray the weeds on the footpath.

The Trust requests that council include the Hannah St shopping precinct in their regular maintenance program.

Regards,
Ross Walker OAM
