[Crows Nest Station construction contract signed](#)

A \$370 million contract has been awarded to build Sydney Metro's new Crows Nest Station.

Construction company AW Edwards will deliver the station, which will include two entrances, footpaths, lighting, retail space, improvements to pedestrian and cyclist safety around the site and enabling works for future over station developments.

[Managing health and safety](#)

Exposure to silica dust is a key risk in the construction industry. That's why at Sydney Metro we put a lot of effort into protecting worker health.

It's a commitment we share with our delivery partners, making sure that everyone goes home safe at the end of the day – both now, and in the many years to come.
